---

## EDUCATION

---

Systems Analysis and Development — FIAP — 2023 (Completed)

MBA Systems Architecture — FIAP — 2024 (Completed)

## PROFESSIONAL EXPERIENCE

---

### **Backend Analyst & Developer** | Vertem | 2023 – Present

Focused on customer engagement and loyalty solutions, developing services responsible for cashback mechanics, scoring systems, gamification, and repurchase incentives. Contributed to the evolution and maintenance of microservices supporting large-scale digital products. Involved in the platform's distributed architecture, technical design of services, and standardization of engineering best practices. Currently working on distributed systems related to payments and financial integrations, handling transactional rules and reliability for sensitive operations.

### **Backend Analyst & Developer** | Tradeback | 2022 – 2023

Worked at a subsidiary of the Vertem group, focused on developing and maintaining APIs and services. Responsible for implementing new features, fixing bugs, and supporting evolving demands, contributing to the stability and continuous improvement of the applications.

### **Full Stack Developer** | Freelance | 2009 – 2022

Delivered custom software solutions for businesses and entrepreneurs, managing the full software lifecycle from conception to deployment and ongoing support. Projects included ERPs, point-of-sale systems, registration systems, inventory control, and admin platforms. Developed landing pages, hotsite pages, and digital storefronts, along with integrations for payment gateways, fiscal document issuers, and third-party services. Implemented access control systems, business automations, and integrations with hardware and microcontrollers. Extensive experience in data modeling, application architecture, and solving real business problems.

## QUALIFICATIONS & CERTIFICATIONS

---

- Software Engineering — FIAP / Desenvolvedor.io
- .NET Development — FIAP / Desenvolvedor.io
- High-Performance Code — FIAP
- Relational and Non-Relational Databases — FIAP
- Messaging with ServiceBus, RabbitMQ, and Kafka — FIAP
- Containers: Docker and Kubernetes — FIAP / Desenvolvedor.io
- Cloud Fundamentals, Administration and Solution Architect — FIAP
- DevOps — FIAP
- Python Development — FIAP
- Python Training — Alura
- Big Data — FIAP
- Java Fundamentals — FIAP
- Compliance and Quality Assurance — FIAP
- Golang Expert — Full Cycle Inc.
- Software Engineering with AI — Full Cycle Inc.
